YOUR
RESPONSIBILITIES

To ensure your warranty remains valid, you'll need to meet the following requirements:

- Make sure your caravan is serviced in line with the manufacturer's schedule at a VAT registered garage. You have a 28 day window from the service due date to get this done. Your caravan must always be roadworthy, legally compliant, insured, with a valid MOT and up to date road tax (Towing Vehicle).

- Keep all service receipts and invoices as proof that required maintenance has been carried out. You may need to provide these documents when making a claim, so having them available can help prevent delays or issues during the process.

- Carry out routine maintenance on your caravan as needed, ensuring it is kept in good working order at all times. Failure to maintain the caravan properly may lead to problems that could have been prevented, and in such cases, we will not cover the cost of any resulting repairs.

- Follow the claims procedure outlined in this document. It's straightforward, but it's essential that you follow it exactly for your claim to be considered. .

- Do not ignore any warning lights on your caravan, as this could worsen the issue and impact our decision. Any potentially covered faults must be reported to us immediately.

FAILURE TO MEET THESE REQUIREMENTS MAY RESULT IN YOUR COVER BEING INVALID.

HOW TO
MAKE A CLAIM

Important: All repairs must be authorised by us before work can commence. Failure to do so will result in us being unable to pay your claim

Follow the steps below

1. If your caravan develops a fault, follow these steps:
2. Book your caravan into a garage for diagnosis and a repair estimate.
3. Complete the claims form on our website: **www.warranties4U.co.uk**
4. After diagnosis, email us the following:
   - The diagnostic report
   - The repair estimate
   - Your towing vehicle registration number & Warranty holders name
   - A breakdown of parts, labour hours, and costs (including VAT)
   - Send this to: **claims@warranties4U.co.uk**

   Important: Do not start any repairs until you have completed the claim form and received a response from us. We won't be able to consider claims for work already carried out.
5. Once we confirm what is covered, we'll email you with the approved repairs.
6. You can then go ahead with the work.
7. After the repair is completed, our accounts team will arrange payment.

Important: If you choose to have the repairer begin work without our approval, please be aware that your claim may be rejected, as this prevents us from inspecting the caravan and identifying the cause of the issue. In such cases, you will be liable for any additional parts and labour costs, as well as any repairs not included in your plan

How to receive payment: Once the repair has been completed, either you or the repairer should email a copy of the repair invoice to **claims@warranties4u.co.uk**, together with any additional documents we have requested. Please ensure the invoice is issued in the name of **Warranties 4 U LTD**; otherwise we will not be able to reimburse the VAT portion.

REMEMBER: YOUR CLAIM CAN ONLY BE PAID IF THIS PROCESS IS FOLLOWED CORRECTLY. PLEASE NOTE OUR STANDARD TERMS FOR PAYMENT DATES

In addition to the terms on the previous page, there are some other important things you need to be aware of when requiring claims assistance:

- We reserve the right to make contact with repair garages to discuss any potential liability and to appoint the garage and/or parts supplier involved. We may also choose to use exchange or reconditioned guaranteed components, and to have any parts examined or sent away for inspection or refurbishment where necessary.
- Where a repair or replacement results in an improvement or enhancement of the caravan beyond its condition prior to failure, we may, at our reasonable discretion, request a contribution from you towards the cost of the repair. This will always be discussed with you before work begins, taking into account the caravan's age, mileage, and the expense of returning it to its pre-breakdown condition.
- If the reason for the failure cannot be identified through initial diagnosis, it may be necessary for the caravan to be partially or fully dismantled for a claim to proceed. This will only be carried out with your approval, and any costs incurred will remain your responsibility until the claim is authorised.
- To determine liability, we may at times appoint an independent assessor to inspect the caravan and provide a report. Their findings will be final and binding on all parties. If, under agreed arrangements, the caravan is unavailable for inspection or the assessor is unable to complete their assessment (for example, if the caravan has not been stripped as required), we reserve the right to deduct the cost of any additional inspection visit from the approved claim amount.
- Repair durations are calculated in line with the repair time definitions set out in the contents section and at the agreed labour rate. Our liability will be determined based on these published repair times for the relevant work.
- All faults must be reported to us without delay.
- You may be asked to provide evidence of servicing, such as a recent VAT-registered garage service invoice, before any repair approval can be granted.
- Once authorisation has been issued, you will have 45 days to complete the repairs and submit the invoice for payment. After this period, the claim will be withdrawn and no payment will be made.
- This warranty covers a single repair per individual covered component.
- If multiple components fail at the same time and the claim is accepted, they will be treated as a single claim.
- Any false or fraudulent claim will render the warranty void, and we reserve the right to pursue legal action in all such cases.

CLAIMS PROCEDURE

Approved Repairers
We recommend that you use one of our approved repairers for any non-emergency repairs. However, you are free to choose any VAT registered garage to carry out the work if you prefer.

Caravan Warning Messages

- If a warning light appears on your caravan dashboard, you should stop using the caravan and consult the manufacturer's guidance. Only continue riding the caravan if the manufacturer confirms it is safe to do so.
- A warning light or a fault code from your caravans on-board diagnostics (OBD) system may suggest a potential issue, but it does not on its own confirm a breakdown or part failure. It should be checked as soon as possible, and you must notify us of the issue.
- You should also stop using the caravan if you notice any other signs of a problem, such as unusual noises, vibrations, or any leaks of fluid or water. If further damage occurs because the caravan continues to be drivenh after a fault is noticed, we will not contribute towards the repair costs.
- If you become aware of a fault, and it is safe to do so, you should take the caravan to a repairer without delay.
- Do not authorise or proceed with any repairs until we have reviewed the claim and given you written approval.
- If your caravan is not rideable and you are away from home, you can contact our 24/7 emergency roadside assistance and recovery service on **0203 668 1569**

Information Required from the Repairer
When you take your caravan to a garage, please ask them to complete a full diagnostic report and email it to **claims@warranties4u.co.uk**. We must receive this within 7 days of you first reporting the fault.

The following details must be included:

- caravan registration, your name, and your address
- A description of the suspected faulty component, including part numbers where available
- The date the fault first occurred
- A detailed repair quotation, clearly listing diagnostic charges, parts, labour, and VAT
- Any printed OBD (on-board diagnostics) reports

Once we have received all the required information, we will deal directly with you or your repairer to progress your warranty claim.

IMPORTANT: It is your responsibility to approve any diagnostic work or caravan dismantling required to determine the source of a fault. Your warranty will only cover diagnostic and dismantling costs if we have agreed in advance that these can be included in your claim; otherwise, you will be liable for these charges.
Once we have received all necessary information, we will notify you and your repairer whether the repair is covered under your warranty. If it is approved, we will confirm the authorised claim amount. Where applicable, you will remain responsible for any costs that go beyond the approved limit.

GENERAL **CONDITIONS**

1. You are required to follow all terms and conditions set out in this warranty, including those under 'Your Responsibilities'. Any responsibility we have is dependent on your compliance with these terms and the accuracy of the information you provide.
2. If any information you supply is false or misleading, we may treat your application as fraudulent and cancel your cover without refund. If we have already made payments due to dishonest or exaggerated claims, your cover will be void immediately and no reimbursement will be given. We also reserve the right to pursue legal action to recover any costs incurred. Any such proceedings will take place in the courts of England and Wales.
3. You must provide all information and assistance we reasonably request in order to deliver services under this plan, including where we seek to exercise rights against manufacturers, repairers, suppliers, or other third parties.
4. You must allow us unrestricted access to inspect the caravan at any time following a claim.
5. It is your responsibility to authorise any repair work and to cover the costs if it is later determined that the repair is not covered under this warranty.
6. This warranty operates under English law, which will apply unless you request an alternative legal jurisdiction and we agree to it within 30 days from the start of your cover. All correspondence relating to your warranty will be conducted in English.
7. We may, from time to time, update the terms of this warranty, including changes to wording, component coverage, or to comply with new laws and regulations. The most recent version of the terms and conditions can be obtained by contacting admin@warranties4u.co.uk
8. No changes may be made to this document without our prior approval. This warranty is provided in addition to any statutory rights you may have.
9. At our discretion and subject to approval, you may be offered an upgrade to your cover (if eligible) within 4 weeks of commencement, as well as the option to renew up to 30 days before expiry. By purchasing this warranty, you consent to being contacted regarding these opportunities.
10. We maintain a zero tolerance policy towards abusive, defamatory, or inappropriate behaviour. If such conduct occurs, we may cancel your cover and, where appropriate, take legal action to recover any associated costs or damages.
11. We reserve the right to withdraw a previously authorised claim without providing a reason.

We apply our own judgement to ensure fair and reasonable outcomes for all claims. If you remain dissatisfied after following our complaints process, the final decision will be made by our Directors. This does not affect your statutory rights.

We act as the Data Controller for any personal information you provide. This means we have a legitimate interest in collecting, storing, and sharing your data within our group of companies to manage your cover and deliver services to you. Your data may also be shared with repairers, dealers, suppliers, or other relevant third parties where necessary. It may be used to contact you about your cover, for direct marketing (where you have opted in), service improvement, legal and regulatory compliance, or crime prevention purposes.
You have the right to access and correct your personal data at any time and can update your communication preferences by contacting us. Full details of how we use your data can be found at www.warranties4u.co.uk/privacy.
